

REMARKS

Applicants hereby amend the Specification to recite the relationship of the instant application to previous applications and to provide an abstract on a separate sheet of paper following the claims. In addition, Applicants have amended Claims 3, 16, 20, 21, 25, 26, 30 and 31, and canceled Claims 2, 4, 5, 7, 24 and 34, in order to further the prosecution of the present application and Applicants' business interests, without acquiescing to the Examiner's arguments, and while reserving the right to prosecute the original, similar, or broader claims in one or more future application(s). The amendments are supported by the original description, and do not introduce new matter. In particular, support for the abstract can be found on the cover page of the related International Application No. PCT/US2004/038032, published as WO 2005/046617. However, if there are any questions regarding the amendments, Applicants encourage the Examiner to call the undersigned collect.
